DETAILED ACTION

Page 2

Allowable Subject Matter

Claims (1-16) are allowed.

The following is an examiner's statement of reasons for allowance:

regarding claims 1 and 10: the prior art of record (Meyer et al –5991113 and Himle et al – 6717759) neither in combination or individually which suggest nor disclose a pole tip protrusion control that based on the measurement by writing a first data sequence along a first section of the disk; reading the first data sequence from the first section during the first reading operation and generating the first measuring signal; heating the transducer by using a second write data sequence along a second section of the disk wherein heated transducer causes the pole tip (or at least part of the slider) to protrude toward the disk surface; while protruding toward the disk surface, reading the first data sequence from the first section during the second reading operation and generating the second measuring signal; and, generating the pole tip protrusion measurement in response to the first and the second measurement signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to K. Wong whose telephone number is (571) 272-7566.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, D. Hudspeth can be reached on (571) 272-7843. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
